

Complete score improvement report

Local complete score improvement report for a parent owner review.

Knowledge diagnosis: Calculation rules and formula usage need staged practice.

Per-question loss point breakdown: Mark the missing condition, formula, solving process, and final verification.

7-day score improvement plan: Three correction reviews, two targeted exercise days, and one final mock test.

Parent guidance: Use process feedback and avoid guaranteed-score promises.

Local mock report only. No guaranteed-score promise is displayed.
